

Pennine Weavers

Pennine is the largest worsted weaver in the UK, with 32 Dornier looms, and weaves 30000-35000 metres a week. Investment in technology, systems and people allows the company to produce cloth of the highest quality with unrivalled flexibility.

“

We chose to work with Jumpstart because we heard good things about their track record and high success rate.

It's been a great experience. We were impressed with their professionalism and the ease of working with Jumpstart. We had lots of projects that we were unsure would qualify but one great aspect was having the Jumpstart Analysts guiding us through what was and wasn't eligible.

Only one meeting a year was required of us, so the process didn't take up too much of our time, and didn't interfere with us running our business. Jumpstart provided us with a robust, properly assessed report which gave us the confidence that HMRC wouldn't question the figures.

I'd be completely happy to recommend Jumpstart to other businesses.

Gary Eastwood, Managing Director
Pennine Weavers
